

Science for Life Seminars – Campus Solna schedule

Schedule for spring 2019

January 1, room: *Air and Fire* at 15:00

Erin Shuman

USA

Host: Ilaria Testa

[More information](#)

January 29, room: *Air and Fire* at 15:00

Marcel Tijsterman

Institute of Biology Leiden (IBL), Netherlands

Title: Mutational signatures and scars by DNA Repair

Host: Bennie Lemmens

[More information](#)

Mars 5, room: *Lunchroom Gamma 2* at 15:00

Silke Wiesner

Institute for Biophysics and Physical Biochemistry, University of Regensburg, Germany

Title: *The importance of being inactive: Structural insights into the down-regulation and activation of ubiquitin ligases*

Host: Mikael Borg

[More information](#)

Mar 26, room: *Lunchroom Gamma 2* at 16:15

Lars Steinmetz

Stanford University, USA

Title: *Developing technology for the future of precision health: Meeting the needs of a changing medical landscape*

Host: Vicent Pelachano

[More information](#)

April 2

Gerhard Schuetz, room: *Air and Fire* at 15:00

Technical University Vienna, Biophysics Group, Institute of Applied Physics, Vienna, Austria

Title: *Quantifying in quantitative cell biology: how, what, and why?*

Host: Stefan Wennmalm

[More information](#)

Maj 7

TBA

Maj 21

Aaron Gitler, *room: Air and Fire* at 15:00

Stanford University School of Medicine

Title. Expanding mechanisms and therapeutic targets for neurodegenerative disease

Host: Oscar Fernandez-Capetillo and Per Moberg

[More information](#)

Jun 4

Johannes Söding

Max Planck Institute for Biophysical Chemistry, Germany

Title: Bioinformatics tools for the age of metagenomics

Host: Arne Elofsson

[More information](#)
