

SciLifeLab symposium in Superresolution Microscopy

We cordially welcome you to several webinar lectures on applications of superresolution fluorescence microscopy from world leading experts

Time: Tuesday 19th of January 2021
Wednesday 20th of January 2021

Tuesday

13:30pm *Multi-focal Structured Illumination Microscopy*

Dora Mahecic – EPFL Switzerland

14:15pm *Nanoscopy meets lifetime (Tau-STED)*

Daniel Smeets – Leica Microsystems Germany

15:00 pm *Optical nanoscale imaging*

Jörg Bewersdorf – Yale University USA

Wednesday

13:30pm *MoNaLISA live-cell nanoscopy*

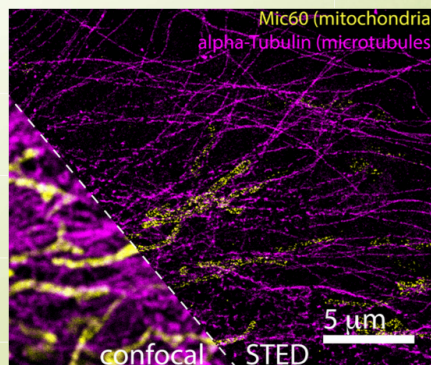

Ilaria Testa – KTH/Scilifelab

14:15pm *Neurons at the nanoscale with SMLM*

Christophe Leterrier – Aix-Marseille University France

15:00pm *Superresolved microbiology*

Ulrike Endesfelder – Carnegie Mellon University USA
