

CLINICAL TALKS

"SUSTAINABLE INNOVATION FOR
THE NEXT GENERATION"

SEASON

Date: Fridays* September - May, 2021/2022
Venue: ZOOM  virtual room
Host: SciLifeLab and KI Innovations
Moderator: Michael Akhras, PhD
Audience: An open educational seminar series
Purpose: Speakers features experts within Life Sciences

DATE	SPEAKER(s)	TOPIC	AREA OF EXPERTISE
2022			
May 6	Tomi Mäkelä Professor University of Helsinki Executive Officer iCAN	iCAN and developing a national precision cancer medicine program	Precision cancer medicine
Apr 22	Sami Blom Director of Application Development Aiforia Technologies	The future of pathology is digital	Digital pathology
Apr 8	Jean-Marie Volland Scientist, Berkeley Lab & Shailesh Date CEO Laboratory of Complex Systems	Seeing is believing, unraveling the discovery of <i>Ca. Thiomargarita magnifica</i> a centimeter-long macro-bacteria	Biological diversity
Mar 18	Sara Mangsbo CSO & co-founder Strike Pharma Assoc. Professor Uppsala University	True precision medicine in immuno-oncology, challenges, and opportunities	Immunotherapy
Feb 18	Tero-Pekka Alastalo CMO & GM CardioSignal co-Founder Blueprint Genetics	Spearheading the cardiovascular precision medicine with innovative medical tools	Pediatric cardiology
Feb 4	Åslaug Helland Professor Oslo University Hospital PI IMPRESS-Norway	IMPRESS-Norway and implementing precision cancer medicine in Norway	Precision cancer medicine
2021			
Nov 26	Richard Rosenquist Brandell Professor Karolinska Institute Director Genomic Medicine Sweden (GMS)	The road towards precision medicine in Sweden	Precision medicine
Oct 29	Ina Stelzer & Brice Gaudillier Gaudillier Lab, Stanford University	Blood-based methods for predicting the day of labor	Multi-Omics
Oct 21	Emily Leproust CEO & co-Founder Twist BioScience	Writing the Future	Oligonucleotide synthesis
Oct 15	Emma Lundberg Chariman & Founder Mindforce GameLab	Playing your way to a healthy life	Medical gamification
Sep 30	Hyunsung John Kim Sr. Bioinformatics Eng. Foresite Labs & GRAIL founding member	Detect cancer early, while it still can be cured	RNA liquid biopsies
Sep 9	Andrea Ballagi VP Sales & Marketing Olink Proteomics & Simon Fredriksson co-Founder Olink BioScience	From BMC to Wall Street	Proteomics
Sep 3	Karim E. Cassimjee CEO & co-Founder EnginZyme	Combining the power of nature with the efficiency of the chemical industry	Biocatalysis
