

June 16

9:00	Registration
10:00	Welcome
10:30	The future of life science - SciLifeLab beyond 2026 <i>Jan Ellenberg, Director of SciLifeLab</i>
10:50	The importance of the Infrastructure for Innovation and Translation to Healthcare <i>Niklas Blomberg, Executive Director of Innovative Health Initiative</i>
11:20	Panel Discussion <i>Jan Ellenberg, Niklas Blomberg, Charlotte Stadler, Rafael Camacho</i>
11:50	Lunch
13:00	Workshops
14:00	Coffee break
14:30	Platforms presentations
14:45	Vascular targeting to improve therapy of brain tumors , <i>Anna Dimberg</i>
15:00	Exposomics in Fin Whales: Mapping Anthropogenic Chemical Exposure in Ocean Giants , <i>Stefano Papazian</i>
15:15	Precision Diagnosis and Clinical Monitoring in Congenital Disorders of Glycosylation , <i>Maria Blomqvist & Jonas Nilsson</i>
15:30	CBGE platform pipeline projects – multi-modal mechanism-of-action elucidation as a blueprint for IDS , <i>Michaela Vallin</i>
15:45	Unlocking Hidden Genomic Signals from Unconventional Samples , <i>Johanna Lagensjö</i>
16:00	Check- in and free time
17:30	Pre-dinner cocktails, Poster and Art Exhibition
19:00	Dinner

June 17

09:00 **Technology Development Projects - 5 min Speed Talks**

Claudio Mirabello, Bioinformatics (+CMI and ISB)

Hsiao-Lei Liu, Genomics

Marta Carroni, Cellular and Molecular Imaging

Ulrika Brath, Integrated Structural Biology

Steven Edwards, Cellular and Molecular Imaging

Bernhard Schmierer, Chemical Biology and Genome Engineering

Anahita Bakochi, Proteomics

Åsa Björklund, Bioinformatics

Bianca Stenmark, Clinical Genomics

10:15 **AI Agents and Virtual Assistants: Future perspectives**

Ola Spjuth, AI Lead SciLifeLab

10.45 **Short break**

11:15 **Workshops**

12:00 **Lunch**

13:30 **Career Path for a Staff Scientist, David Walker**

Panel Discussion

14:00 *Karin Dahlman Wright, David Walker, Annika Jenmalm Jensen, Annika Johansson, Ellen Sherwood*

14:30 **Closing Remarks**

14:45 **End of Day**
