
SciLifeLab The Svedberg seminar series spring 2025

Time and venue

These events can also be found via our [Events calendar](#).

Monday, February 10, at 15:15 in C8:301 BMC,

Prof. Axel Meyer

University of Konstanz, Germany

Titel: On giant lungfish genomes and the genomics of adaptations and speciation in hyperdiverse cichlid fish radiations

Host: Dan Larhammar, Per Ahlberg UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-axel-meyer/>

Wednesday, February 19, at 15:15 in A1:107a BMC,

LENNART PHILIPSON MEMORIAL LECTURE

Prof. Jan Ellenberg

Karolinska Institutet, Sweden

Titel: Imaging the molecular processes of cell division across scales

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-jan-ellenberg/>

Monday, March 10, 15:15 in C8:301 BMC

Prof Bart Roep

Leiden University; The Netherlands

Titel: Human beta cell protection by Nature

Host: Olov Andersson, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-bart-roep/>

Monday, April 7, at 15:15 in C8:301 BMC

Prof Aditi Das

Georgia Tech. USA

Titel: Navigating Lipid Metabolism: From Basic Molecular Mechanisms to Cellular Symphony

Host: Peter Kasson, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-aditi-das/>

Tuesday, April 22, at 15:15 in C8:301 BMC

Prof Henrik Kaessmann

Heidelberg University, Germany

Titel: The origins and functional evolution of amniote sex chromosomes

Host: Leif Andersson, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-henrik-kaessmann/>

Monday, May 5, at 15:15 in C8:301 BMC

PhD. Simon Roux

DOE Joint Genome Institute, USA

Title: Viral ecogenomics: exploring viral diversity and virus-host interactions from metagenomes

Host: Maliheh Mehrshad, SLU & Luisa Hugerth, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-simon-roux/>

Monday, May 12, at 15:15 in C8:301 BMC

Prof. Lars Barquist

Helmholtz Institute for RNA-based Infection Research, Germany

Title: Extracting meaning from high-throughput functional genomics data with Bayesian statistics

Host: Mikael Sellin, Maria Letizia Di Martino, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-lars-barquist/>

Monday, June 2, at 15:15 in C8:301 BMC

Prof. Eugene Koonin

National Institutes of Health, USA

Title: The world of viruses and its evolution through the lens of metagenomics and metatranscriptomics

Host: Peter Bozhkov, SLU

<https://www.scilifelab.se/event/the-svedberg-seminar-eugene-koonin/>

Monday, June 9 at 15:15 in C8:301 BMC

Prof. Laurence Hurst

University of Bath, UK

Title: The evolution of codon usage bias in humans: the unwanted transcript hypothesis

Host: Matthew Christmas, UU <https://www.scilifelab.se/event/the-svedberg-seminar-laurence-hurst/>
